“Global UAS OPS” is an international survey on drone operations [current and near-future (1 to 2 years)] targeting drone operators in all countries & is available in English, French & Spanish.

SCOPE & OBJECTIVE

- Collect factual information from the international non-military drone operator community
- Identify: ♦ The drone operators by: ♦ Operational category (commercial and/or non-commercial)
  ♦ Type of operator (corporate, gouvernemental, academia, NGO)
  ♦ The market sectors (current & near-future) - 25 selections proposed
  ♦ The flight missions (current & near future) - 33 selections proposed
- Using an operation-centric approach, map & compare the current & future very low level (< 500 ft) drone operations market (VLOS, EVLOS, BVLOS; over densely and/or sparsely populated areas)
- Contribute to the identification of the drone operator community to regulators, investors and itself
- Recognise the respondents by name & country of origin in the survey results

Note: The results will be available on a no-cost basis to all respondents, regulatory authorities (national, regional, international), involved stakeholders & interested parties, by posting on www.rps-info.com
